

## **PDI Pre Delivery Inspection**

### **Locatie**

Dordrecht

### **Functie omschrijving**

In this role, you will work independently as a quality controller to handle the inspection of returned machines. You will pay attention to numerous details, identify defects and damages, check inspection dates, and determine the necessary follow-up actions to prepare machines for rental again.

### **Functie eisen**

- You have a hands-on mentality and enjoy working in a dynamic environment.
- You have an affinity with (auto) technology, vehicles, and large machines.
- You have an interest in hydraulics, electro, and/or diesel engines.
- You are service-oriented and can work well both independently and in a team.
- You have sufficient command of the English language.

### **Bedrijfsprofiel**

Working at our client means being part of a dynamic and enjoyable work environment with enthusiastic colleagues. They provide room for your development and support it with various training programs.

### **Arbeidsvoorwaarden**

The terms of employment are regulated in the ABU Collective Labour Agreement (CAO), where we adhere to the emoluments in accordance with the hirer's remuneration of our clients, supplemented by their own arrangements (such as a company car, work clothing, certified tools, and a collective health insurance), and a Certificate of Good Conduct (VOG) may be part of the application process.

The following six components in the ABU CAO fall under the hirer's remuneration:

- Current period wage in the scale
- Days off in lieu (ATV/ADV)
- Supplements
- Initial salary increase
- Expense allowances
